

The Trust Centre Profile

Improving the lives of young people after acquired brain injury.

Our Centre:

The Trust Centre is a unique education facility, based in Derbyshire, that offers bespoke programmes which integrate rehabilitation principles into an education curriculum for young people with an acquired brain injury.

The centre has been established in collaboration with Trust -Ed, a charitable organisation which facilitates provision for young people with acquired brain injury. Trust-Ed provides ongoing consultancy and training for staff at the centre, in addition to being equally represented on the centre's management board.

Pupil Profile:

The Trust Centre admits young people from across the UK who:

- Have sustained an acquired brain injury at any time in the past
- Are aged between 9 and up to 19 years of age.
- Are medically stable
- Are independently mobile (wheelchair or walking).

Features of Our Provision

- Each young person's strengths and weaknesses are accessed as part of the admission process and on an ongoing basis
- Young people received individualised interdisciplinary programmes embedded within the National Curriculum, delivered by specialist teachers, therapists and teaching assistants
- We base all of the work within the classroom setting. Professionals work with the young person towards practical, functional strategies which can be demonstrated to families and home school staff
- We maximise each young person's potential and assist them to prepare for leading a full and rewarding adult life
- We aim to enable young people to return to their mainstream school environment as soon as is practical and ensure this is a well planned and effective transition, with ongoing support
- We support and provide clear information for family members
- Day, 38-week and 52-week residential placements available.

Referrals can be made by parents, local authorities, case managers or solicitors/insurers. On making the referral confirmation of the funding for the placement will be required, whether this be via local authority, compensation claim or private finance.
